Eighth Annual Meeting of Infection Prevention and Control
In Cairo University Hospitals CUH
"Towards Prevention of HCV Transmission"

At LRC
March 8th 2016

First Announcement

Dear Colleagues,

You are cordially invited to attend the "Eighth Annual Meeting of Infection Prevention and Control in Cairo University Hospitals" on Tuesday, the eighth of March, 2016.

The meeting will present the current situation of HCV in Egypt, steps done to prevent the transmission of HCV in healthcare settings, the new advances in treatment of HCV and a review on infection control activity in Cairo University Hospitals. A faculty of excellent speakers will update you on the current national and international issues in infection prevention and control.

The meeting includes Sessions on occupational prevention of HCV, and prevention of transmission of HCV in dialysis units.

We look forward to your participation and exchanging experience with national experts in infection control, Tropical and Internal medicine.
